

ZERO WASTE AND CIRCULAR ECONOMY

Your school
logo here

School: _____

Date: _____

Guide Reference: Step 5: Develop the input for your strategy

Objective: Use the sustainability framework to develop the sustainability strategy.

This theme focuses on reducing material use in construction and operation and providing solutions that reduce the use of virgin material through sharing, reuse, and recycling.

The toolkit should be used in conjunction with the Sustainability Guide available on the [QIS BGA website](#). Refer to the Sustainability Guide for further instruction and commentary on how to use this tool to establish your school's sustainability strategy.

WORKSHEET ACTIVITY

What are your school's key considerations for zero waste and circular economy (cost, time, quantity, etc)?

What zero waste and circular economy initiatives have been done at your school before?

Complete the zero waste and circular economy checklist and summarise key activities and findings.

What are your school's major challenges for zero waste and circular economy?

What are your school's major opportunities for zero waste and circular economy?

Is there any funding available for zero waste and circular economy initiatives?

Set 1 to 3 priorities for zero waste and circular economy for your school.
